

UMAR ABDALLAH

IT Student | Adaptable Professional | Strong Foundation in Operations, Communication & Technology

abdallahumar249@gmail.com | 0506 295 753 / 0246 011 709 | Kasoa, Central Region, Ghana | [linkedin.com/in/umarabdallah](https://www.linkedin.com/in/umarabdallah) | github.com/abdallahumar249-stack

PROFESSIONAL SUMMARY

Information Technology student at the University of Ghana with a well-rounded background spanning operations, education, and technology. Combines hands-on experience in fast-paced, front-line settings — including cash handling, client assessment, and process administration — with four years of teaching experience that has sharpened communication, stakeholder relations, and the ability to explain complex ideas clearly. Brings a disciplined, detail-oriented approach to deadlines and figures, and is reserved by nature but a vibrant and dependable contributor in team settings, stepping confidently into leadership when required. Proficient in Microsoft Office and Google Workspace applications, with a recently completed Certificate in AI Fundamentals and training in Agile and Digital Business Skills. Adaptable and quick to learn new systems, with an interest in applying technology across diverse fields and industries.

EDUCATION

Bachelor of Science — Information Technology	2025 – 2029 (Expected)
<i>University of Ghana, Legon (Distance/Weekend Programme)</i>	

RELEVANT EXPERIENCE

Loan Officer & Cashier	Jul 2023 – Jan 2024
<i>Three Kings Enterprise (Financial Institution)</i>	

- Processed daily cash transactions — deposits, withdrawals, and till reconciliation — with full accuracy and accountability in a fast-paced, small-team environment.
- Assessed loan applications, evaluated client eligibility, and supported disbursement and recovery processes from initial enquiry through to repayment follow-up.
- Operated across multiple functions typical of a lean financial services team, including client onboarding, basic record-keeping, and use of digital tools for tracking accounts and transactions.
- Maintained accuracy and compliance with internal cash-handling and documentation procedures, building a strong foundation in financial service operations and client trust.

Data & Technology Exposure	2024
<i>Three Kings Enterprise (Financial Institution)</i>	

- Worked alongside operational duties to explore database management systems and technology tools used within a financial services setting, bridging day-to-day banking operations with the technical systems behind them.

TEACHING & COMMUNICATION EXPERIENCE

Class Teacher — STEAM Subjects	2025 – Present
<i>Berachah Royal International School (Primary & JHS)</i>	

- Delivering STEAM lessons at primary and junior high school levels while pursuing a degree in IT.

Class Teacher — STEAM Subjects	2025
<i>Father's Legacy International School Discovery Remedial School Christ Commission & Christside International Schools</i>	

- Built strong working relationships with colleagues, parents, and school management through clear, confident communication.
- Restructured curricula to better align with learning objectives and consistently received excellent performance evaluations.

Class Teacher — Primary Level	2023 – 2024
<i>Graceland Academy NiiNaa International School</i>	

- Delivered engaging, inquiry-based STEAM lessons and supported pupils' academic progression.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Secretary, Science Union	2020 – 2021
Contested for Science Union President; subsequently appointed Secretary.	
Financial Secretary, Ghana Muslim Students Association (GMSA)	2021 – 2022
Managed financial records and supported organisational operations, reinforcing financial diligence and accountability.	

CERTIFICATIONS & TRAINING

- Learninverse — Certificate in AI Fundamentals (June 2026)
- HP LIFE Foundation — Digital Business Skills
- HP LIFE Foundation — Agile Project Management
- Learninverse — Office Productivity Tools Training

SKILLS & COMPETENCIES

- Cash handling, reconciliation, and loan administration from direct banking floor experience.
- Working knowledge of database management and financial services technology systems.
- Proficient in Microsoft Office and Google Workspace applications.
- Working knowledge of AI tools to support research, content creation, and productivity.
- Reserved and detail-oriented individually, yet a vibrant, dependable team player — comfortable stepping into leadership roles when needed.
- Strong public speaking and stakeholder communication, developed through classroom teaching and community engagement.
- Adaptable and quick to learn new systems and processes.

ACHIEVEMENTS

GETA Business Case Challenge — Participant	2026
Contributed to a team developing strategic plans addressing customer retention and satisfaction challenges at the intersection of technology and business.	
African Entrepreneurship Competition — Selected Participant	2026
<i>Supported and funded by TLG Capital University of Ghana, University of Westminster (UK), University of Ilorin (Nigeria)</i>	
Selected for an international, cross-cultural entrepreneurship competition developing finance-focused, impact-driven business solutions to development challenges across Africa.
